## Introduction

This environmental management policy has been produced for ISG Limited (ISG) and its subsidiary companies. It details ISG's declaration of intent in respect of environmental management and aims to assist all employees in meeting minimum environmental legal requirements in line with the environment. 6.114 0 T60 Tw ( )Tj 6.1 8 env ing w

ISG is committed to fulfil our environmental obligations through the efficient management of our environmental performance and to take all reasonable measures to conduct our business activities in a safe and responsible manner. Our objective is to integrate the assessment, management and control of environmental issues into our business activities, to minimise negative impacts to the environment and provide positive enhancements where possible.

This statement supports ISG's stance on sustainability, the environment, procurement and the use of materials and products including chemicals, oils and fuels.

We are committed to:

- Assessing environmental impact of our operations during planning, design and delivery phases to prevent pollution, protect ecosystems and enhance biodiversity.
- Identifying and ensuring compliance with relevant environmental legislation as a minimum and, where possible, approved industry codes of practice and best available techniques.
- Setting and developing environmental objectives and targets within our sustainability strategy and annual business plans, which are regularly monitored and reviewed to determine their effectiveness and to ensure continual improvement.
- Improving environmental performance and increasing awareness of environmental risks and opportunities by providing training in environmental issues to our employees and supply chain.
- Responding to climate change through mitigation and adaptation and to promote responsible procurement and re

A handwritten signature in black ink, appearing to be 'J. Smith', is written over a set of horizontal lines. The signature is fluid and cursive.

## 2.0 Organisational responsibilities

As a construction management contractor, ISG is responsible for ensuring that work is performed in compliance with applicable environmental requirements and corporate processes for environmental management. This includes:

## 3.0 Implementation and operation

### 3.1
